CHAPTER 4

IMPLEMENTATION

```
Var marker_atm=L.marker([44.9648,-51.15234],{}).addTo(map);
```

Fig 1: Adding points to map

```
var recognition = new (window.SpeechRecognition ||
window.webkitSpeechRecognition ||
window.mozSpeechRecognition ||
window.msSpeechRecognition)();

        recognition.lang = 'en-IN';

        recognition.interimResults = false;

        recognition.maxAlternatives = 5;

        recognition.start();
```

Fig 2: Implementing speech recognition

```
        location.reload();

        document.getElementById('start').value="";
        document.getElementById('end').value="";
```
